

BULLET-BUTTON®

Patriot Mag Release™

PLEASE READ!

Thank you for being one of the first to order this new product. This is not difficult to install but you need to review the installation video at: <https://www.youtube.com/watch?v=9I9EU284PII>
Some of the steps are unique to this product.

INSTRUCTIONS:

1. Make sure rifle is unloaded.
2. Remove magazine.
3. Remove any existing button or release.
4. Install the large spring supplied.
5. Install the PMR steel body into the receiver.
6. Reinstall the standard magazine catch
7. Screw the center nut onto the shaft of the catch, with the included wrench
8. Adjust the depth of the center nut so that the lock tab is almost touching the upper receiver when the rifle is closed... For some AR10 rifles the small threaded screw may be required.
9. VERIFY operation is correct before proceeding.
10. Once satisfied that the lock will only drop the magazine when open, put a drop of superglue into
